

TO RETURN PART OF RELIEF FUNDS

SAN FRANCISCO, Sept. 28.—Herbert C. Hoover has "retired from public office" and is to devote his future time toward making the \$3 and \$6 a day salaries of Stanford University professors more commensurate with the \$8 and \$9 wages of home-building artisans and to various relief measures in Europe, according to a letter received from Hoover by a San Francisco newspaper. The letter was in response to one sent Hoover asking about his future plans.

He is to return between \$55,000,000 and \$60,000,000 in foreign obligations to the United States Treasury in partial liquidation of the \$100,000,000 voted by Congress for relief purposes, he wrote.

"I hope this will be an agreeable surprise," he wrote. "Most of Congress thought that the money was gone forever, but voted for it anyway."

After a month in California Hoover plans to return to New York to pass upon the financial settlement of \$200,000,000 in expenses arising from the operations of the supreme economic council and of the Belgian relief commission.

Don't let excessive expenditure make a day of your purpose. Buy wisely, and increase your money holdings by investing in W. H. S. S.

Rheumatism
A Home Cure Given by One Who Had It

In the spring of 1912 I was attacked by rheumatism and inflammatory rheumatism. I suffered as only those who have known for over three years. I tried every remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send you a bottle. After you have used it and it has proven itself to be that long-looked-for means of curing your rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Let that fair? Will you suffer any longer when positive relief is offered you free? Don't delay. Write today.

Mark H. Jackson, No. 2117 Gurney Bldg., Syracuse, N. Y.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation. Don't send me trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation. If you write to me, Eugene M. Pallen, Carpenter, 1417 Madison Ave., New York, I will tell you all about it. Don't stop the misery of rupture and the worry and danger of an operation.

Williams Wields Wicked Shears and Paste Brush For the Nations' League

Senator John Sharp Williams of Mississippi counts that day lost whose low descending sun sees no editorial, letter, memorial or resolution lauding the League of Nations inserted in the Congressional Record.

Williams hasn't missed a day for months. His steady performance along this line has proved irritating to some league opponents, hence they all grinned appreciatively yesterday when Senator Fall of New Mexico dubbed Williams, during debate, "the exchange editor of the Congressional Record."

LINK GATES WITH MEXICAN REBELS

That William Gates, of Baltimore, who advocated the withdrawal of recognition from the Carranza government at the House Rules Committee's recent hearings on the Mexican situation, was an agent of Mexican rebels was charged in information received by the committee from the State Department yesterday. The data was forwarded to the State Department by the Mexican embassy.

Included among the documentary evidence submitted by the Mexican ambassador were communications claimed to have been written by Gen. Jemara Amplexus relative to and confirming the appointment of Mr. Gates to represent the interests of the revolution before the House committee.

The letter of confirmation was dated Havana, Cuba, July 28, 1919, the same day on which Mr. Gates testified before the Rules Committee. He described himself at that time as an archaeologist and traveler, and declared he had visited parts of Mexico that tourists rarely penetrate. In his letter to the State Department, Ambassador Bonilla pointed out that the appointment was addressed to "the president" of the House committee, but that it was received at the Mexican embassy in an envelope addressed to the embassy. The envelope bore no mark showing the point at which it was mailed.
